

FINISH – ANTI-GRAFFITI

Prima offers an optional Anti-Graffiti coating, resistant to many different kinds of marker pens and aerosols. This specialist coating provides an exceptionally hard, high gloss finish, preventing graffiti from keying to the surface.

ANTI-GRAFFITI FINISH

Process

- Powder coat application to colour choice from Prima standard range (60µm thickness)

- Application of Anti-Graffiti Clearcoat (25µm thickness)

Ref

Anti-Graffiti Finish

Cleaning

- Graffiti can be removed without the need for harsh abrasives, simply by using the specially formulated Graffiti remover supplied in an easy-to-spray bottle
