

## FINISH – MARINEGUARD

Prima offers an optional Marineguard coating, specifically designed for use in swimming pools, corrosive or coastal locations.

MARINEGUARD FINISH

Ref  
MarineGuard Finish

- Stainless steel protection cappings to top and bottom of the door leaves to resist against damage caused by stone chippings and scratches that can lead to rusting
- Galvanised frame fixing straps in lieu of steel
- Wax oil protection to hinge straps
- Galvanised hinge fixing straps to frame and the door leaves in lieu of steel
- Galvanised lock reinforcement cleats for lock bodies and strike plates in lieu of steel
- Application of Interpon APP 120 Active Protection primer (anti-corrosion protection coating formulated by AKZO Nobel) prior to receiving final powder (60µm thickness)
